SUMMARY

ICT Support / Deskside Support professional with experience supporting **100+ laptops across five lab environments**. Troubleshoots hardware, software, peripherals, and network connectivity. Developing routing and switching skills through Cisco Packet Tracer projects and CCNA study, with a focus on junior network and IT support roles.

TECHNICAL SKILLS

- **Switching:** VLANs, access ports, 802.1Q trunks, STP/RSTP fundamentals, root bridge selection, PortFast, BPDU Guard, and LACP EtherChannel
- **Routing:** IPv4/IPv6 addressing, subnetting, inter-VLAN routing (ROAS/SVIs), static and default routes, single-area OSPF, and basic RIP/EIGRP
- **Network services and tools:** DHCP, DNS, NAT/PAT, ACLs, SSH, Cisco IOS CLI, Packet Tracer, ping, traceroute, and interface / routing-table verification
- **IT support:** Windows 10/11, hardware diagnostics, software installation, printer troubleshooting, TeamViewer, preventive maintenance, asset inventory, and technical documentation

PROJECTS

Routing and Switching Labs - Cisco Packet Tracer

- Built a simulated enterprise network with **five VLANs, 802.1Q trunks, ROAS, static routes, DHCP/DNS, and branch connectivity**.
- Configured **STP, LACP EtherChannel, NAT/PAT, ACLs, and SSH**; tested inter-VLAN traffic, access restrictions, and end-to-end connectivity.
- Practiced **single-area OSPF** neighbor formation, passive interfaces, DR/BDR behavior, and route verification; completed IPv6 addressing, SLAAC, and static routing exercises.

PROFESSIONAL EXPERIENCE

Robotics Technology Trainer / ICT Lab Support

2023 - 2026

FELTA Multi-Media Inc., Quezon City - Ateneo de Manila Grade School

- Provided daily technical support for **100+ laptops across five labs**, resolving hardware, software, printer, peripheral, and connectivity issues.
- Diagnosed and resolved **10-20 technical incidents weekly**; coordinated with school IT staff on troubleshooting and equipment repairs.
- Maintained equipment inventory and asset condition logs, performed system updates and preventive maintenance, and backed up files before repairs.
- Trained teachers and students on lab equipment and robotics software; explained troubleshooting steps clearly to non-technical users.
- Supported hardware validation and technical operations for **FIRST LEGO League and Philippine Robotics Olympiad** competitions.

CERTIFICATIONS AND TRAINING

Cisco - Network Technician Career Path	September 2026
Cisco - Networking Basics	September 2026
Cisco - Security and Connectivity Support	April 2026
TESDA Robotics Technologist II - 400 hours	April 2026
Civil Service Examination - Professional Level	December 2025

EDUCATION

Bachelor of Science in Computer Engineering

2019 - 2024

Rizal Technological University, Pasig City
